

COVID-19 Risk Assessment – Full Opening: Schools

The Government has asked schools to adhere to the following:

It is our plan that all children, in all year groups, will return to school full-time from the beginning of the autumn term.

This guidance is intended to support schools, both mainstream and alternative provision, to prepare for this. It applies to primary, secondary (including sixth forms), infant, junior, middle, upper, school-based nurseries and boarding schools. We expect independent schools to follow the control measures set out in this document in the same way as state-funded schools. The guidance also covers expectations for children with special educational needs and disability (SEND), including those with education, health and care plans, in mainstream schools.

The risk assessment template below sets out the known hazards and importantly controls that have been advised either by the Government/DfE, the World Health Organisation (WHO), Public Health England (PHE), NHS (safe practice) or good practice (unions/other sources). Some are suggested measures that may be or may not be applicable to your school and specific education setting. The responsible person within the school should use this information to formulate a plan / safe procedure that fit your school.

There are some specific issues that are addressed in the risk assessment but for clarity please read the following Government advice to schools:

Personal Protective Equipment (PPE) including face covering and face masks:

The majority of staff in education settings will not require PPE beyond what they would normally need for their work. PPE is only needed in a very small number of cases, including: **System of controls – response to any infection**

- where an individual child or young person becomes ill with coronavirus (COVID-19) symptoms while at schools, and only then if a distance of 2 metres cannot be maintained
- where a child or young person already has routine intimate care needs that involves the use of PPE, in which case the same PPE should continue to be used

Read the guidance on [safe working in education, childcare and children's social care](#) for more information about preventing and controlling infection, including when, how PPE should be used, what type of PPE to use, and how to source it.

Schools and other education or childcare settings **should** therefore **not require** staff, children and learners to wear face coverings.

Social distancing in early years and primary schools:

Minimising contacts and mixing between people reduces transmission of coronavirus (COVID-19). This is important in all contexts, and schools must consider how to implement this. Schools must do everything possible to minimise contacts and mixing while delivering a broad and balanced curriculum.

The overarching principle to apply is reducing the number of contacts between children and staff. This can be achieved through keeping groups separate (in ‘small groups’) and through maintaining distance between individuals. These are not alternative options and both measures will help, but the balance between them will change depending on:

- children’s ability to distance
- the lay out of the school
- the feasibility of keeping distinct groups separate while offering a broad curriculum

In the autumn term, maintaining consistent groups remains important, but given the decrease in the prevalence of coronavirus (COVID-19) and the resumption of the full range of curriculum subjects, schools may need to change the emphasis on small groups within their system of controls and increase the size of these groups. At primary school, schools may be able to implement smaller groups the size of a full class. If that can be achieved, it is recommended, as this will help to reduce the number of people who could be asked to isolate should someone in a group become ill with coronavirus (COVID-19).

Schools should assess their circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around school, they can look to implement year group sized ‘small groups’.

All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. Where staff need to move between classes and year groups, they should try and keep their distance from children and other staff as much as they can, ideally 2 metres from other adults. Again, we recognise this is not likely to be possible with younger children and teachers in primary schools can still work across groups if that is needed to enable a full educational offer.

We recognise that younger children will not be able to maintain social distancing, and it is acceptable for them not to distance within their group.

Measures within the school:

Ideally, adults should maintain 2 metre distance from each other, and from children. We know that this is not always possible, particularly when working with younger children, but if adults can do this when circumstances allow that will help. In particular, they should avoid close face to face contact and minimise time spent within 1 metre of anyone. Similarly, it will not be possible when working with many children who have complex needs or who need close contact care. These children’ educational and care support should be provided as normal.

Schools should make small adaptations to the classroom to support distancing where possible. That should include seating children side by side and facing forwards, rather than face to face or side on, and might include moving unnecessary furniture out of classrooms to make more space.

Groups should be kept apart, meaning that schools should avoid large gatherings such as assemblies with more than one group.

When timetabling, groups should be kept apart and movement around the school site kept to a minimum. While passing briefly in the corridor or playground is low risk, schools should avoid creating busy corridors, entrances and exits. Schools should also consider staggered break times and lunch times (and time for cleaning surfaces in the dining hall between groups).

Schools should also plan how shared staff spaces are set up and used to help staff to distance from each other. Use of staff rooms should be minimised, although staff must still have a break of a reasonable length during the day.

Transport arrangements:

Social distancing has significantly reduced available transport capacity. This guidance sets out a new framework for supporting transport to and from schools from the autumn term.

We are making a distinction between dedicated school transport and wider public transport:

- by dedicated school transport, we mean services that are used only to carry children to school. This includes statutory home to school transport, but may also include some existing or new commercial travel routes, where they carry school children only
- by public transport services, we mean routes which are also used by the general public

Schools should work with partners to consider staggered start times to enable more journeys to take place outside of peak hours. We recognise that this option will be more feasible in some circumstances than others.

Schools should encourage parents, staff and children to walk or cycle to school if at all possible. For some families, driving children to school will also be an option.

Families using public transport should refer to the [safer travel guidance for passengers](#).

Attendance

It is vital for all children to return to school to minimise as far as possible the longer-term impact of the pandemic on children's education, wellbeing and wider development. Missing out on more time in the classroom risks children falling further behind. Those with higher overall absence tend to achieve less well in both primary and secondary school. School attendance will therefore be mandatory again from the beginning of the autumn term. This means from that point, the usual rules on school attendance will apply, including:

- parents' duty to secure that their child attends regularly at school where the child is a registered pupil at school and they are of compulsory school age;
- schools' responsibilities to record attendance and follow up absence
- the availability to issue sanctions, including fixed penalty notices in line with local authorities' codes of conduct

All other children who are not self-isolating must attend school. Schools should bear in mind the potential concerns of children, parents and households who may be reluctant or anxious about returning and put the right support in place to address this. This may include children who have themselves been shielding previously but have been advised that this is no longer necessary, those living in households where someone is clinically vulnerable, or those concerned about the comparatively increased risk from coronavirus (COVID-19), including those from Black, Asian and Minority Ethnic (BAME) backgrounds or who have certain conditions such as obesity and diabetes.

If parents of children with significant risk factors are concerned, we recommend schools discuss their concerns and provide reassurance of the measures they are putting in place to reduce the risk in school. Schools should be clear with parents that children of compulsory school age must be in school unless a statutory reason applies (for example, the pupil has been granted a leave of absence, is unable to attend because of sickness, is absent for a necessary religious observance etc).

Response to infection:

Schools must ensure they understand the NHS Test and Trace process and how to contact their local [Public Health England health protection team](#).

Schools must ensure that staff members and parents/carers understand that they will need to be ready and willing to:

- [book a test](#) if they are displaying symptoms. Staff and children must not come into the school if they have symptoms, and must be sent home to self-isolate if they develop them in school. All children can be tested, including children under 5, but children aged 11 and under will need to be helped by their parents/carers if using a home testing kit
- provide details of anyone they have been in close contact with if they were to test positive for coronavirus (COVID-19) or if asked by NHS Test and Trace
- [self-isolate](#) if they have been in close contact with someone who develops coronavirus (COVID-19) symptoms or someone who tests positive for coronavirus (COVID-19)

Anyone who displays symptoms of coronavirus (COVID-19) can and should get a test. Tests can be booked online through the NHS [testing and tracing for coronavirus website](#), or ordered by telephone via NHS 119 for those without access to the internet. Essential workers, which includes anyone involved in education or childcare, have priority access to testing.

<p>System of controls – response to any infection</p>	<ul style="list-style-type: none"> Equipment used by the children and staff will suitably cleaned at the end of each day or before it is used by another person in a different small group; We will take swift action when we become aware that someone who has attended has tested positive for coronavirus (COVID-19). We will contact the local health protection team. This team will also contact us directly if they become aware that someone who has tested positive for coronavirus (COVID-19) attended the school – as identified by NHS Test and Trace. We will send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 14 days since they were last in close contact with that person when they were infectious. Close contact means: direct close contacts - face to face contact with an infected individual for any length of time, within 1 metre, including being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin); proximity contacts - extended close contact (within 1 to 2 metres for more than 15 minutes) with an infected individual; travelling in a small vehicle, like a car, with an infected person Household members of those contacts who are sent home do not need to self-isolate themselves unless the child, young person or staff member who is self-isolating subsequently develops symptoms. If someone in a small group that has been asked to self-isolate develops symptoms themselves within their 14-day isolation period they should follow 'stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection'. They should get a test, and: if the test delivers a negative result, they must remain in isolation for the remainder of the 14-day isolation period. This is because they could still 	<p>Med</p> <p>High</p> <p>High/Very High</p> <p>Med</p>	<p>A-AO and EW</p> <p>M-SLT and Govs</p> <p>A-AO and EW</p> <p>M- SLT and Govs</p> <p>A – AO and EW</p> <p>M-SLT and Govs</p>	<p>September 2020</p> <p>“</p> <p>Staff safety Guidance September 2020</p> <p>“</p> <p>Forest Full Opening Guidance September 2020</p> <p>Staff Safety Guidance September 2020</p>

ACTION PLAN

(Additional Control Measures Required/Recommended Actions)

Hazards and Risks		<i>Recommended Actions</i>
	Kendor Private Nursery on site	Share all FA RAs and September Whole School Opening guidance with Kendor staff. Request all Kendor RAs and whole school opening guidance and share key information with staff on INSET day 03.09.20
	Beckmead Pupil Referral Unit on Site	Share all FA RAs and September Whole School Opening guidance with Beckmead staff. Request all Beckmead RAs and whole school opening guidance and share key information with staff on INSET day 03.09.20

Please note:

All controls are subject to change should government guidance change due to changes to the ‘R’ rate. This could change on a daily basis. Government and DfE guidance MUST be regularly reviewed. Risk assessment must be reviewed if there is a significant change.

Please see the school’s full opening guidance to review all process and protocols, related to this risk assessment.

*Following assessment if no further actions are assessed to be required please mark an **X** in the “Further Actions” box. If however additional controls or actions are assessed to be required please place a **√** in the box and note the action in the action plan.*

Any further actions identified should be completed before the assessed task is carried out.
