MATHS

Please follow each of the links on the specific days to complete the task.

Maths lesson 1 - [Rounding 5-digit numbers to the nearest 10 000 and 1000](#)

Maths Lesson 2- [Rounding 6-digit numbers to the nearest 1000, 10 000 and 100 000](#)

Maths Lesson 3 - [Solving problems involving rounding](#)

Maths Lesson 4 - [Calculating intervals across zero - Activity 1](#)

Maths Lesson 5 - [Calculating across zero - Activity 1](#)

English

Follow the four powerpoints to complete this week's tasks.

This week we will familiarise ourselves with a range of different poetry. We will look at the different styles, structures and language features of poetry. By watching a selection of poets perform their work, we will consider what makes an effective performance and how we can replicate this. Over the week we identify and analyse language features and use this to begin to generate our own language selections for use in our free form verse.

Science

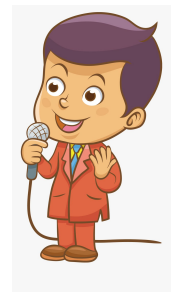

Please follow the link to complete the lesson on how different sounds are produced.

[How are different sounds produced?](#)

Curriculum

You will be watching and reviewing different performances. Looking at what is done well and what they could do better. This is available on the powerpoint called Curriculum.

Art

The Artist's Garden at Giverny

Woman with the parasol

Poppy fields near Argenteuil

The Houses of Parliament

The Beach at Trouville

Water Lilies

This week you are going to research Claude Monet's work. Some of his most famous works are shown above or you could research other pictures that Monet painted. Please pick your favourite piece of Claude Monet's artwork and complete a review of it. Think carefully about the sentence stems that you use and how you are going to complete this piece of work.

I believe...

I think...

In my opinion...

The best part of this picture is...

I like this picture because...

When I compared it to others I found...

I think he could have improved this picture by...
